Austin, Texas 78712

Dear Miss Adams;

Here is another request for the use of a picture from "The Enduring Navaho". This one I would like to grant, as this is alright with you. If you will drop her a line to that effect, I will furnish her the print. Also, I have heard from the publishers of "The Family of Man" wanting childrens' photographs. There are several in the Navaho book, so would you please give this request some consideration? With credit to the book, of course, a necessity and I am sure these things lead to book sales.

I am just back from Canyon de Chelly on another trip regarding my work on it, and found the 4th printing of the book at a number of places. There were complaints from all about the new jacket, which no one likes and I hope that before printing #5 comes along, we can really get together on this. With best wishes,

Sincerely yours,

Laura Gilpin
