Albuquerque, N. E. 87110.
Feb. 5 - 1969.

Dear Friend:- The book arrived yesterday and I am simply delighted to have a copy of my own. It will always be a prize possession. Thanks for the inscription. I want you to know that the very first photo - the one of Shiprock at a distance - must have been taken only a few miles from our trading post. We could climb the mesa back of the store and have a clear view of Shiprock to the north. Your camera may have been 10 or 12 miles nearer. I may find other views with which I am familiar.

I have Navajo Neighbors and Navajo Folk Tales wrapped and ready to send to you as soon as someone goes to the P. O. - We are now a 'one-car' family and take turns in running errands.

I was figuring prices and books did not seem to come out even. So I am enclosing \$2.00 which brings it a little more in balance - I wish I could attend some (or one) of your exhibits, but I have arthritis of hip and spine, so I have difficulty walking and go very few places.

Thanking you

Very sincerely

Franc Johnson Newcomb.

I will be 82 next month.
