Dear Miss Gilpin:

Thank you for your letters of March 3 and 4, with the three newest transparencies. All three were so nice that we couldn't settle on just one. We will use the portrait of the woman with the corn in place of the shot of Monument Valley for c-13. The air shot of Monument Valley, by the way, will be c-1. We liked the group at the Squaw Dance very much and have decided to substitute it for the group on the way to the fair as c-14. We hope that this switching around meets with your approval. I am returning the not-to-be-used transparencies with this letter.

I have changed the acknowledgment to the Indian Arts Fund and the School of American Research, as you requested.

Best wishes to you.

Sincerely,

Barbara Spielman
