

Insert on page 2.
"Washing"

Using the pounded roots of the yucca plant for soap, the pulp is stirred in water, then the soapy mixture is poured - - -

(page 5 insert following line ²³)

The making of these from top and bottom edges, ~~as seen~~ a perfection of harakot technique, are made of a double cord. ~~made~~ produce a finished edge when the rug is finally removed from the loom by untying the edge from the loom cross bars.

Silva

For many years all Silva was polished with buckskin

It ~~would~~ does seem logical, however, to assume that the Natchos had known the blacksmiths trade long before the exile, for they ~~had~~ had been in touch with the Spanish for practically two centuries. They have seen ~~little~~ little bits, strips and other items fashioned by blacksmiths, and also

The art of painting is
