

July 16, 65.

Miss Martha Hall,
Department of Education,
Bureau of Indian Affairs,
Window Rock, Arizona.

Dear Miss Hall:-

Day before yesterday, I came to your office to find that you had gone to Shiprock. I am ~~office~~ very last stages of completing a photographic book on the Navaho on which I have been at work for a number of years. I need specific information on the accomplishments of Annie Wauneka. I saw her but she was reluctant to talk about herself. I have known her for many year, and I have a new portrait I made of her last year, wearing the Freedom Medal, which I shall use. I will need roughly about 500 words for page opposite. I have her birth day, but little else. I know more of what she has done on the health program than on the education.

May I impose on you for a brief summary of her achievements in this field? And do you know anything of her own education?

I am sorry that I could not show you the dummy of the book so you would have a better idea of my project, but I will appreciate greatly whatever you can send me.

Sincerely yours,
