Dear Miss Gilpin & Miss Foster,

Your letter circulated to several places - I guess if I had told you before my legal name is Nancy Rose Benally Evans - the letter would not have to have gone to too many places. I ~~was~~^{am} happy to hear from you.

I am glad you are nearly completing the book. People who know of the book ask me if I know it's been published yet so many people besides me are anticipating the book. I have re-written a short part which merely clarifies what I did with 2 years after the M.S.

We still plan to visit you sometimes. My husband is back from Panama & now working for the Navajo Tribe in Window Rock. I am leaving this job the end of May & will move to Ft. Defiance where we have a trailer. I am considering maybe returning to school sometimes soon to complete work on the Ph.D. But I am also very much interested in working with the ^{big} Economic Opportunity Act ^{project} which is starting in Window Rock just now. I must confess my work ~~was~~ directly with the Navajo people

has been more satisfying than my three previous work. I shall write again when we are settled again for a short while.

I should return the publication please now. Write us again before long.

We shall see you sometimes -
Kells to Miss Forster -
Nancy Rose & family.
