Guadalupe

ditches in Canyons de Chelly + Del Monte

no of acres
total 30,000
at present

Look up 29. Hills book

Irrigation while some of it invented or learned in crude form
for Pueblos was greatly developed after Ft Sumner
where the Govt made such an effort to turn the Navaho
into sedentary people.

Introduction of wind mills in 1880 reduced necessity
to keep moving stock to hunt for water
