My dear Miss Gulpin.

I have a present from
my dear Nancy Webster which is dear
to me for two reasons, one that it came
to me just after I had received word of
her death, and the other that it is such
a delightful book, and has your name
initialed in it. Since I cannot thank
her, may I tell you how much I care
for it?

Also I am hoping so much that
I may be able to have a set of the
photographs of her horses, which you

were taking as I left, and which she
wrote me were everything she could
here make. I do not know the number
or price of the set, but they will be
invaluable to me!

Very sincerely yours,
Mary Buckley
