June 12, 1950

Dear Laura:

Don't worry too much about the May Wallace Ross questions. I'd like to come back at anything of this kind showing that your research has been perhaps better than hers. After knowing what you checked in the manuscript, I am sure you have it. If it is not convenient to find it we'll let it pass.

Item VIII A--check for advance of \$250.00 is enclosed. I can only say that these things are handled automatically. However, I should have checked more closely myself because I knew that you had materials to buy for your trip.

I haven't seen the Collier piece in the Natural History Magazine, but I'll get a hold of a copy immediately.

Mary left with the children this morning. They will be up at her house in Talpa at least through July. I hope to be there for the first two weeks in July so do let me know where you expect to be at that time. I'll check naturally in Santa Fe. I suppose there will be nothing to show on the Navajo Book, but I'll most certainly see you on my stay there. I'll check with the advertising department to see what's been done about the ad in the Southwest Review.

Best personal wishes.

Sincerely,

Walter L. Goodwin, Jr.
