September 17, 1953

Dear Laura:

Cap has turned over to me your letter of September tenth with Nancy Newhall's good review of Strand's French book. The current U. S. Camera Magazine also has a nice review. We have ordered a copy of the book for you.

Your discussion of "brilliant ink and of the types of prints you can make for reproduction is very helpful. I do hope that we can print the book in this country. Since you are willing to make two prints, would it not be most practical if you gave us along with the manuscript a set of the prints the way you want the picture to look. Then after deciding on the printer and consulting with him, we could determine what modification of scale would be most advantageous for reproduction purposes. If we do it that way, the printer can have no excuse.

We look forward to hearing from you in a month or so and trust that everything goes splendidly from here on.

Best always,

Charles
