

Oct. 15,

Dear Wally:-

Thank you for all the information on color reproduction. I shall ^{get} the information toward a calendar for next year.

In August I sent in two orders on Rio Grande. Mr. Hurdon filled the first order which I delivered and wrote me that the first edition was gone. If you still have some copies whay havent I ever had the second order? It was for eight copies. These were for a school and they are waiting for them. I have written them that the first edition was gone and their second order would be from the second edition. How soon are you expecting this from the printers? I hope soon, for I am more than anxious to see it with the corrections and also to see if the printing job is better, and all those spots removed.

The new car is swell and I shall be off again on another short trip very soon. Two good jobs to clean up first. I am sure the next royalty statement will show all the figures and reviewers' copies etc. I had forgotten about those and doubtless you sent out a lot.

At this point my I remind you about the Southwest Review. I understand that my article will be in the winter edition. A small add would certainly make them feel better over there and it will come at a time of year that may boost Christmas sales. John Colliers article will be in the winter edition of the new Mex. Quarterly so between the two the Rio Grande will be getting some new publicity.

My best greeting to all

Sincerely
