Dear Laura -

We are both so thrilled & so proud about your book we can hardly write - We always knew it was going to be lovely, but we had no idea how perfect it would be. The Photography & the writing together combine to make it unique, in a class way above most books - Carol & I pore over it ourselves & read every line, & Carol is teaching from it, & says it's the best Geography she's met - We want

would love to read it & see it.

We would like to send a copy
to all our friends, but since
we have to start somewhere we've
picked out some English friends
who've been to Tin Cup, are crazy
about Colorado, & N. Mexico - Who
camped beside the Rio Grande,
went to Indian Dances with us etc

Would it be too awful if we
asked you to sign two copies &
send them to these friends of
ours - We can think of nothing
they would love more -

Enclose \$15.00 - if 3.00 isn't enough
for postage please let me know -
With our congratulations possible

Affectionately

Pete & Carol.
