Dear Miss Gilpin:

I was very glad to receive your wonderful book. The words "thank you" do not express the pleasure I - and my family have had in reading it. We have admired the beauty of the photography and the plen of the whole work which tells a smooth connected story of the Rio - Bravo and the land through which it flows. But best of all I have been pleased with your kind phrase of dedication. If I was indeed of some help to you in any --- small way I am truly happy.

The book will prove very popular because of its many merits. Already it is being praised highly by many people whose opinions are worthwhile. There is no need to wish it success.

I hope that we may meet again soon. May happiness and good health be yours always.

Sincerely yours,

*Muchas gracias*

Victoria.
