

Santa Fe so whoever goes in does
errands for the others.

When I was in town yesterday
I visited the Art Museum and surely
enjoyed the photographs shown there.

Sincerely yours,

Agnes Walker

P.S. If you ~~need~~ one of the cards in
order to identify the picture, I am
keeping one of the cards until I hear
from you.

My dear Miss Gilpin
As you know from the call
from the Camera Shop yesterday, I
am very anxious to get an enlarge-
ment made of a picture you took
some years ago in Chimayo. The
post card says on the back "a Weaver's
Work Shop. Chimayo, New Mexico". It
shows Mr. Ortega at his loom and
his grandson by the window.

One of Mr. Ortega's daughters is
a friend of mine. She had never seen

the picture and very much wanted more of the cards - I had only the one - so I have been trying to find some. Yesterday the owner of the Camera Shop found two for me among some other old ones, and he called you as you know.

Could you make an enlargement about 7" x 11" for me to give to my friend? If you could make me a half a dozen smaller ones - about post card size - I would be very glad to get them, too.

Please let me know when you can - when and where I can get them and how much they will be. Then I will come or send for them - Embudo is fifty miles from
