Dear Mr. Gardiner:-

More than a year has slipped by very quickly. I am wondering if you have settled upon the date for my RIO GRENADE show for June or July. Several dates have been upset recently, and it now does not go to Santa Barbara until September. Wichita, Kansas, has just written me about it and they want it this spring. Perhaps they and you and come close enough to-gether to require only one shipment.

The show as it stands now consists of 140 prints, and had best be kept to-gether. You can select what you wish from it. It was in Dallas for December and part of January, was here in Santa Fe, November, just following publication of the book.

I am pleased to tell you that the book is going very well indeed and goes to press soon for the second edition. This on a \$6. book in less than six months pleases me greatly. Here and in Dallas, the local book stores cooperated to display the book. I do not know what you facilities or policies are regarding sales of this sort, but pass on this information for your consideration.

Thanking you for your interest in this exhibition and hoping it will meet your expectations, I am

Very sincerely yours,
