Dear Mr. Frese:-

There is one question I wish to ask before sending back the signed contract and that is regarding the copyright once more. What about a copyright for Mexico as this should be a large market for our forthcoming book? It may be that Mexico requires a special copyright, I do not know.

In my letter of Aug. 30 I asked to have three copies sent to me here of THE PUEBLOS. These have never come. Would you be so kind as to check on this please? I have sold one copy and been paid for it and should like to deliver it. The one copy I have I need with me as it is always a door opener for anything new I want to do.

To-morrow I am going up to Colorado Springs for a few days and will stop in Taos to see the Curio shop in the hotel which is the only place there which could handle the book. I hope they will send you an order.

What is your postcard set up? I do think we could do a lot of business all through this country. What is the minimum number of cards per printing run, and quantity? I have had numerous inquiries.

With best wishes,
