Dear Mr. Dreyer:-

Your letter reached me this morning and I am delighted to have news of action on TEMPLES IN YUCATAN. I have made the notes on the pages you referred to, and enclosed them herewith. I am pleased that you have found no more than this. Page 3 was changed after I had the whole typed, and I re-copied it myself and evidently forgot to add the accents as my typewriter does not have any. Did I include the pronunciation at the foot of the page? I should have done so and indicated the accent by use of capitals.

I did not see the corrected Calendar wheel drawing which Van der Sluis sent direct to you. The corrections were very clearly indicated but if there is any doubt on your part could you airmail it out for a check?

Have you any idea yet as to publication date? I sincerely trust that it will be by late summer or early fall, for the tourist travel to Yucatan begins in September and that will be our biggest outlet I am sure.

Sincerely yours,
