

March 18,
1948

Dr. Walter Frosch,
Eastman House,
41 East 80th St.,
New York City.

Dear Walter:-

Your two letters came in today's mail. It is good now that the book is so nearly ready. I yet do not know publication date. It would be a wonderful break for me if there were a New York review in the next ten days which would co-incide with the judging for the Guggenheim. That would be perfectly timed and help a lot.

For special reviews I suggest the following

Dr. Sylvanus G. Morley
Aportado Postal 355
Merida, Yucatan, Mexico.

Dr. Frederic A. Douglas
Denver Art Museum,
Denver, Colorado.

Dr. Clyde Fisher
American Museum of Natural History
New York City.

Dr. Tesser in Cambridge. I will get his full name and address and send it to-morrow. Also someone in Mexico City.

Miss Erna Fergusson
Albuquerque, New Mexico.

Excuse a very hasty note but I want this off at once, for the possible N.Y. review. If you know any ropes to pull give them a good one to get this in just before the judging which takes place the last week in March. Will write further about other plans in a day or two. Good luck and best wishes.

Sincerely
