

Nov. 27, 1941.

Mr. Walter Frese,
67 West 44th St.,
New York City.

Dear Mr. Frese:-

Many thanks for your letter of the 24th which came yesterday. I can well imagine how upset everything is and I guess we must all take it in our stride. I am planning some special displays here at the request of the local book stores in connection with the book, possibly also in Denver, several 11x14 enlargement of selections of pictures.

I do not believe that Dec. 5th is too late for the Christmas market as people usually buy books at the last minute, though it may be too late for reviews, though perhaps you can take care of that in advance. A good review (provided one gets it!) can help a lot.

To-morrow I am leaving for a very short trip to Santa Fe and Albuquerque and shall do what I can towards a display down there. I expect to be back by Tuesday evening and shall hope to find sample sheets here.

I hope that you can airmail me copy no one off the bindery both for an advance copy to show as well as the fact that I should like to have it.

Good luck and wishes for a happy landing for Hastings House & L.G.
