Miss Laura Gilpin
614 Alameda Road
Santa Fe, New Mexico

Dear Miss Gilpin

I am enclosing a photostat of the adapted photograph for stamping on the front cover. I am at a loss, however, to determine the correct treatment for the center of this design. As you know, the binding die can not produce tones. Therefore the center must be either black or white on the reproductive copy for the die cutter.

I am also enclosing tissue overlays* suggesting possible treatment (these, of course, are merely suggestions), but the final decision rests with you. Please return enclosed photostat with your reply.

Very truly yours

HASTINGS HOUSE
