614 Alameda Road
Santa Fe, New Mexico

Dear Miss Gilpin

I am enclosing the photographs for the jacket front and back of TEMPLES IN YUCATAN, the lettering for the jacket, the drawing for the endpaper and also a proof of the endpaper. Since this material was printed separately from the book it was in another department and was, therefore, overlooked when the manuscript and photographs were sent to you.

I am also enclosing a photostat of the drawing for the binding die and front page of the book. Since this was used in the book itself, I am sure that it was returned to you either with the manuscript or the photographs as all the material used by the printer was in the two packages. A thorough search shows that we do not have the drawings that you mentioned in your letter to Miss Fiske. I believe that a careful check will prove that they were returned in either the package of photographs and drawings which Miss Fiske sent you or with the manuscript that I sent.

Very truly yours

HASTINGS HOUSE
