Darling - Darling -

your letter came to greet me on a day filled with rain - but it brought sunshine and warmth and your heart to me - & I did not care any more about the grey sky above - Yes - you and I can never really feel apart - we have had too many moments of utter understanding and again you let me share this feeling of yours that life, in its depth, is as beautiful as it is inexplicable - I want to mind to be able and come to

My love well all around you!

See with you the turning burning autumn leaves - see it with you - means - seeing it REALLY as it is meant to be looked at, lived -

I am deeply grateful that John is well again and send him my fondest love - we talked or rather about you and him, Eric, Emily and I. And not only that, but I met at my hotel an American lady - Mrs. Constance Keller - she says her father-in-law is a great friend of John's? So there am I go - he is known and loved.

Darling how are the Helen Keller prospects? I would so love to work with you on that film! Am very hot on Schweitzer trail, met his European representative - it looks VERY HOPEFUL! Prof. YUNG also is planning and all is OK: I AM 100% ALIVE!

FEEL IT - YES?

COURSE Erica.
