ERICA ANDERSON
11 WEST 69 STREET
NEW YORK 23, NEW YORK

How I love your letter, Nell, darling — so you, so singing, so full of peace! Isn't it strange that we hardly ever know where our road leads us? But it happens that around sharp cliffs and dark waves sunshine or quiet waters appears.
You - like none else I know - except Schweitzer - are so immensely able to pass on this peace to others. That is why my heart is always wide open and so

grateful when I can be near you.

On Dec 3rd I'll be leaving again. On the 5th I hope to be in New York. Rhena made the English soundtrack in Swiss-German, I have not heard it yet, but people from the Lab said it is very hard to understand, so I might have to repeat all the work!! But we will see — in any case I'll be able to see you + Dario + Remy + this time we will cook up something which DOES work! The smallpox has subsided — what you said about your feeling of A.S. knowing him — is so beautiful — Well — you HAVE him more than others

Yes have been around him for years.!
