THE HONGKONG & SHANGHAI HOTELS LTD

Nell Darling,

If you only could have been with me in the tiny little mountain village in Indo-China - its name is MUONG SING where I photographed another jungle hospital founded by a young American boy — Dr Tom Dooley — the faces of the old Thai-land + Laos people - their children's faces - you would have loved it Dr! And how would I have loved to be with you!

It was a very strenuous flight - half way around the world - and yesterday returning in a one engine plane through the Rockies - I really did not think we'd make the landing — but here I am - alive and grateful for all I can see, sitting in Honolulu over a cup of tea and thinking of you and John - Later I return I'll have to go back to Haiti for a week but then 6 weeks in New York - and I want to rest and see you!

All love always

Erica.
