6/15/80

Dear Ms. Dorr:

Just a note to say how much I loved to read about your life and especially to see for the first time some of your photographs. (Wtby. Republican article, 5-11-80)

I am a mother and also have an interest in photography. Your photos of mothers & children were really inspirational. That is one of my favorite subjects, as well.

I would love to see more of your work and have you critique some of

my photos. If that is not possible or OK, I would like to know where I can get

Mother and Child as I have called 2 bookstores for it.

Thanks,

Claudette Baril
