

Dearest Dorn,

Since I'm not very good at saying what I feel, I want to tell you in my note. It is hard to put into words what a wonderful treat this has been to me. I have completely fallen in love with New York and New England; But Villa Serena will always be my place of dreams - It is like a heaven that you dream about but never get to see - well, I have seen my heaven and now I can always go back in my heart.

There are too many things for me to say "Thank You" for - I can not possibly name them all. The most precious things you have given me are of yourself and your thoughts - Everytime I touch my necklace I shall remember its blessing - and think of my Dorn -

This is how I must say
Thank You -

& I Love You & Mary
with all my heart Byron

Dorn
