

8/1/62

Dear Nell,

Many thanks for your kind notice and for the photographs of your good friend Tigger. I am sure we would like him. The picture where you appear as a white cloud is very beautiful. We are also happy with the one with your John - record of brighter days.

We deeply hope your John will recover once more - although his state now may be hopeless. It is a pity he had not the opportunity till now to write his memories. Why should you not do it as long as you can talk with him. I think it would be extremely interesting and a consolation for you - and for him.

I am very thankful you are not angry with me. I realise now I should not have written to you about that book, as Paula advised me. The best we can do is to drop the subject altogether.

We shall wish you much courage and remain ever

Your Kenner
