Dear Nell,

13 Dec 87

We hope you are well and enjoying the
winter snow and your birds and trees.

Things are going along well for us. Ann's
book is out in an updated and enlarged second
edition, printed by The American biological
Institute this time. She is still very
busy trying to influence **Peace on Earth** people in the minerals
industry to improve their public relations and
make a better place for themselves in our civilization.

We went to Florida last month to cruise on
Charles new sailboat with him but a broken rick
for Ann's fall changed plans a bit. She is much
better now.

Our Brazilian family will arrive for 3 weeks
in 7 more days. We will all get together at
