Just after phoning I had planned to get you last into but thought it too late when I got in + didn't want to wait. The long distance on my end has always feeling worried by the time & sign which is foolish. I really only wanted to hear your voice.

I am so glad that P.O. W. turned out O.K. I hope Frank L. was there for I know you gave him something real. He is a dear boy.

You see you must watch I am not so generous with you but I think giving fills us up.

You must use discrimination and give where it is wanted at the time or later.

Blowing Rock I think is O.K. as long as there is no danger of state quarantine. In a time of change it puts the girls on their feet to have their own environment

at any school.
and back ground rather
than wandering; tho. P. W.
would be helpful & simple.

It gives you also a chance
to do the Southern schools
well. I wonder if you will go thro
Charlottesville again.

I would think it nice to
see the Loyds. I shall write
Lloyd Lloyd & tell him of seeing
this old partner & of our plans.*

Dined last nite with Will Fisher
his son. A Denver architect who once
built an apt for me.

His wife had melanecolia
& drowned herself in the lake
there 2 yrs ago.

He is a lovely & artistic soul.
I didn't tell him of our wedding
yeb. He & Allan have an apt
& batch together. They cooked me
a wonder ful meal. & took them
to call on the Vettens. Mrs V is
a yellow haired Norwegian of culture
and charm. & their home had much
attractive including a 12 yr old girl

He spoke of the good party but didn't
ask about you specially & I didn't
mention you or us.

I also saw Mrs Van Lan yesterday. She is tall & very nice looking with gray hair.

VL's mine on Cripple Creek hasn't been good. They are

operating one near Leadville. I shall call Van in a few minutes at Fairplay.

I won't leave until Thursday mite for S.F. Am very glad I came out to Denver.

but badly played a good game of golf with Ed Regan yesterday.

I was much interested in yr mural story. You will have sunk into the man's mind altho he fought you & you will get it.

^{groff & groff has}
Fisher is redecorating
this Hotel & putting
~~in~~ (Murals from N.Y.)

I told him of yours. I
would like him to see
some of your work. I can't
see how I came away
with none of it.

Would you mail to
Wm & Fisher Architect.

I am going to a picnic of the
Mile High club tomorrow with Fisher

I hope you can get the school
& Betty's plans for the winter
off your mind. I think of Paris
studying merchandising. going over on
the Norfolk line. My young friend
Will's daughter there & getting a back

does. I know you can sell Mildred's
family. — old planner sheer you say

If it is necessary
to make you feel
comfortable for me
to come South directly
and carry you there

I will ~~even do that~~
It wd be much simpler

the Lario idea
