

June 18th

Lazy Sunday
9³⁰ P.M.

Dearest Bee

Again on the road Snowlast
nite used tonight. A long day C.H. over
12-130 Phyllis + K + H lunch and
discussed plans for Europe. With a ~~total~~
4-7-. I had arranged for Sandy to
meet a man at 10 at the mill, but
he didn't turn up tho the man
went to the W.D. + saw the Dr. + I
cant get S tonight. Arthur is doing
well.

I opened a woodcase box for you from
Dorr - Oliver N.V. Amsterdam + found
a lovely Plover pitcher so you will
have a Thank you letter to write. I was
much touched by it.

Arthur says Bengt Wadsted in Stockholm
is doing wonderfully well his children almost
the every age also our other Swedish
Friends. Ray though very cold entirely
gone - I also. I shall see to the German
trip when your visit is over + I have
initiated what has to be done here.

You know you can nearly see the
Spring flowers beneath the snow
and I do want to feel

we are ready for it.

It looks most like Feb & March
planning for April & May there
part time & then off & away.
You don't know how lovely it
is here except for the empty
room next to mine & I see
you there in my mind. Your
radio is fixed so that you
can rest & hear lovely music
and I somehow think you will
find things smoothed down at
least in the acting etc when
you get back. What would you say
to a husband that took a 5³⁰
- 6³⁰ siesta regularly?

I outlined one schedule to Phyllis
today & she seemed thrilled.

Melinda wants to go overseas
the two small kids & take a house
at Wassenaar for 3 months. She could
make it quite useful especially if
one rented here & I'd leave the older boy
in the apt. in the town.

God bless you dearest one I wish
I could look in on you & yours.

John
