

I am ashamed
to write the same date.

Kay + Hunter were in here talking about
you + what would suit best + Kay said
you should be doing a show with children
+ told us of one she had written.

The children go on strike + leave their
parents + plan a world of their own elect
a King + Queen. It is a satire on the
mistakes of grown people. Much is
done by a voice reciting + then there
are scenes gardening + doing other work
settling disputes Courts etc. The
K + Q have to leave when they get
sixteen.

Kay said you could do it with
6 "stage children" + others for dancing
and also supes etc. Said you could
do it much better without Tash
or K + Q for you knew what you
wanted. I know when you get back
+ hear her story it will intrigue you.

I can see you with Helen bossing
your caste up at the secret house
and doing most of it with little
scenery except the fields + woods etc.

Taylor is anxious to meet me + come
up tomorrow afternoon. You can all
you need in Brica, Kay, Hunter, Taylor
+ your distribution Co. for world wide
distribution + you could bring in a
chinese lad or two or any other nationality.
I got quite enthused over the idea.

For if you want to do it
in April & May. Plus March
leaves gives you plenty of time
before running away in June.
I think I will get passage on
that freight boat to Holland on
June 11th. I wrote Burr today
re trip and sent him to see our
new Dean Easton.

Corned West Branch make
a place for pictures.

Hemlock Pool would certainly
lend itself and the xmas tree
groove while if the iceberg
wallow was trimmed up and
had the water there clearly defined
it would be interesting.

Sometimes the Secret House
sounds better, but you never can
tell & you may want water shot.
So I leave you anyway. I have been
in this room all day but working
very happily.

I am sending your love to
our friends in India. My best to
Barb, Mays & Robbie. & X
Kay was delighted with the picture
of Kitten & has written you
