Dearest one

Kay & H have been working all day & Kay is now playing some results

I go back to my pencil pen a great comfort.

Snowing again all day but warm. Medved to lunch & a talk with A.T. Surely I like him.

made Reservations definitely to
June 11th Cargo boat, but also
talked to Johnson & will see what
he can do. The women land us
in Surden. Arola Harold & wife
Coming.

Your letter today was very dear
& read most of it to Ueller & Mack

— I have stopped a bit & now
it is 12- & I am tired of writing in
to work. It must be beautiful
at Crest Beach with the new
sun over everything. I have tried
to get Sandy with no luck &
shall surely be glad to get a family
there instead of one who
might fall down or anything
Now I will finish & put all thoughts
out of my mind but peace & sweet
dreams & your head on my shoulder
& the world shut out.

So much death is lovely for us
both. Your wind pictures are so wonderful
I am sorry about Tom. We do get people that
just won't stand on their own feet & must have
our children & insist on you paying for them. Well

Love
