June 23rd 5 Aer.

Dearest Aer

I woke up this morning knowing I have much to do + planning to do it or some anyway.

Kay gave me the mag Science of Mind from Feby 6th 1961 I find

"I can only live in the Eternal Now"

"All that I desire to be, I hope to be I am now"

etc. Somehow good — will here goes. I feel wonderful + that I can do Anything!

Dir. of Research last nite — old times + news. "Reminiscies + plans". Regretting ex did not know new men to call by first names. As did old crowd. Recognition as all age — nearly 24 years ago, - easier but strong desire to tie it closer. I suggested planet visits etc + invited crowd to another barbecue in May for May meeting

Those present spoke of seen last time + the sheep + goat + one of your spirit of joyousness that prevailed or pervaded + catalyzed the crowd

So there is another date - May 1st

Hugs Dr reading.

Trip Europe - I caught passage outward on a freighter 8 days but can only get

direct to Sweden by air - London
to Sweden boat 2 days.

Kellys go on July to Oct + miss crowd. Have seen refusal passage on Italian boat Genoa - N.Y. 11 days

This seems for from what they are doing with a mite of humanity. I know the first few days can be anxious ones. I always think of Barby as so normal (after delivery)

I am going to put a call thru from A. City tonite for I craved hardly expect another letter this morning.

I certainly feel proud of Bep today + am a little proud of myself for taking as good care of myself as I have done and hope you are of me.

Jan 19th - 26th Feby 2nd - 2 weeks. If I come your way we voted A go to So Texas quietly hiring a car B train Tucson and So. Calif. with pressure S.F. + crowds unless go ojai (ranch) Santa M. Think it over. Let me fly L.A. + meet you Tucson having done mixing etc. Time we need it by the month - Perhaps what if much much love dear. J.

I am anxious to know the name + sex of the baby as soon as it is around yours.
