

Monday nite

Dearest Dee

It seems funny to be writing to you just after talking but I think you think of what you can't say. The kids were sweet & it gave Daphne a great kick to ask to go.

We had dinner at the Club. Very slow not too good but spiced with cheery brightness. They had to take the 10. o'clock so we came uptown again to call on S.H.D. but found all out & came here.

Old Arthur sound so despairing when he talks. I had forgotten to ask you about the Copywrite but Erica has just told me. She has been laid up with intestinal flu but is better. I told her I had sent you the love etc.

The kids are debating wedding trip. I suggested Bermuda which appeals to them. They seem afraid of becoming after Shirley's trip. Talked to Browne (farm agent) man at lunch today.

Am holding to the job of getting all around man for mopping up. Danire & all for I do want to get out of so much of my load.

I am organizing with Day R.
quite happily to take my
work here + feel sure we
will get the best of it moving.

I seem to get to a stop here
for I am tired of saying what I want or
are going to do. Our annual mtg
is Apr 13th. Somehow we will get
things all lined up before then.

I have looked up tickets
to Nassau feeling I might still
justify a week there. You leave
Newark at 8³⁰ AM + reach Nassau
at 3¹⁵ PM the same day. Plenty
of space. The children are still looking
for an apt. There was a Chinese boy in from
Columbia who may go to Crossport
and has a six room apt on Riverside Drive.
they might get temporarily. If the Fallways
were gone I would be willing to have them here
but doubt if it would be good for them.

Well dearest One kiss to you + the dear baby
+ parents. Don't even think if I tell
you "apart," goes, it doesn't need goes
precious + lovely presence to make
it go twice as well. You were here in
speech last night + your fragrance is
all around me + they all enjoyed it
I do bless Keep you John
