

JOHN V. N. DORR
570 LEXINGTON AVE.
NEW YORK

Tuesday Evening
with my best girl
En route to the West.

Wife dearest —

The old habit we have of talking
to each other with free "right of way."

I felt very happy at your leaving
for I am sure you will have a restful
time on the train + great joy in
accomplishment as well as contact
with loved ones.

We stopped at Au Canarie d'Or.
+ had a good supper. So good I refused dessert.

On the way home realizing I had
failed to provide the going away token
I had wished to we stopped at Denis
+ wired for camelids to meet you at
St Louis. With every possible means
of identification, they should have met
you but you never came.

Kay was pleased with the reference
to his song in "Notes" and if we can
get some sparks of poetry started I
know she would love to do some
song writing. — I sent my MRA friends
tonite + shall turn in early feeling

that rat is really the specific.

It has cleared but my wall thermometer still shows 35°. What a joy it is? Tomorrow is Sam's birthday & he comes over with a cake for lunch.

He turned down my financial segregation but was much interested in shipping possible interest in A & S.

Will about getting away!!! I can promise you I will get well & rid of this hang dog old cold.

Where I go to do it I don't know but I will find out very promptly.

I also know I will put jobs for V.N.D. & J.V.N.D. ahead of jobs for the Company for a while.

I will give O'Brien every chance to get my acting, the "own things" & do my best to get it things, it

Health is number one & playing son

Some with you may well be #2. Where?

Now, I shall revise my '48 schedule & see what we can put down as best fitted together. I will talk to your pub. woman tomorrow for you also may get under pressure to do things. God bless dear heart & on our knees let us pray to wipe away the mists that blind us from Reality at Times.
