Cree Dearest Ann

A notable day I had a few of the lads at lunch today and told them I was planning to make an announcement of Del Mgmt. stock before I went abroad this Summer & also re plans for throwing work on others which might mean resigning from Presidency at some definite time ahead.

So there is a step forward They were all excited over it etc. I also told them.

I told them I had to be satisfied that the Co was set to go as I wanted it & that while I wanted to sell some of my stock it was not to put the mine in Co in control but rather to split between several groups. My friend Frankenburg has stock to mean he thought I owned stick with him & this

and he is strong on Keeping control himself. I am willing to bear it with myself and Family feeling the latter will rather back me up or study enough to have valid opinions.

So then we have a goal set to work against.

I speak tonight on dust with Bassett + Miss O'B and I think got it reasonably along for closing intelligently.

Somehow Wednesday night and no word from you since I talked Sunday. I know dearest you are doing your best and I am a bit worried lest you are overdoing.

Don't back on the 9th + hope you will be here on the 15th for Q.M.E. I have heard nothing more of the contract meanwhile I miss you dearest one & love you truly. Lucile. God bless.
