ie dis trave in summer
that I dont qiv it a
thought except as to
my eas and a bit of
a headache I have
got. Have worked all
running dictating.

I hope you will have
had a good trip down.
Getting away from
NY & into the hot
must help. It doesnt
seem so long until
the 10th & yet there
is a lot to be done.
I have no idea what

Dearest Sid
You didnt sound
very well my darling
and I sounded afterwards
very cold & business like
that's what time & $5.50 daring
in the face does.
I didnt feel like
going without talking to
you & perhaps I bothered
you now knowing I
would be sailing
the night while you slept
Call me one I have
such infinite faith

you are doing with Jensen but hope you are not letting anything else interfere with this being useful to you and that goes for Lewis. There is no real difference between now & Aug 30th + what I have it for you.

I shall be thrilled to see your things. I hope you will write me all Cody and tell your ideas and jump me if I seem bossy.

Above all remember we have what you haven't had recently, a margin of safety we don't have to hurry or we don't have to do anything we don't want to do. If the children are not settled we still can leave them + if we plan to sail the 30th + delay till the 10th NO ONE will suffer. Also I seem to crowd I shall never let myself be really pushed again. and when I get your head really on my shoulder it will be a place to rest. God bless you dear + keep you safe for us both.

John
