

DEWEY RIDDLE RANCH
PAINTER VIA CODY
WYOMING

Sunday Evng.

Dearest Gail.

By a lucky chance some one went to Cody yesterday & took yr letters Tuesday & from Winchester. What a time you had with ice & if not OK. the last I have is bluing. put on as a paste or thick liquid. Inoculation is useful. Driving with it must have been hell. Your wire from B.R. means Resto Case.

Your tale of Schenck was delightful. We go'd sleep from Denver & he there cross. I have been thinking inscriptions but have not gotten beyond the simple — to —. Bobbys scribbles that you tell me of always offended me & I feel you know & I know. & why write it all out for the chance outsiders to see.

Your Dentist story interests. I know I can keep you with ideas & contacts. In general it tells a million in adv. to start something new, but there are those who hear it for anything demonstrated & this can be tried in a small way after proper study.

I told Phyllis the news this afternoon & she was much excited & pleased. Car then told Burr at bedtime & he showed great astonishment but was also pleased. Linda later refused to believe it. He has to realize how of children place you as a fixture and don't contemplate other relationships.

Car had a short ride this morning & this afternoon a swim. heavy current & a cold & deep cold but a warm sun. After Phyllis & I walked up the stream in our trunk & spent an hour outers

making a diverting game + cutting
a new short circuit channel
digging in the grave with feet + hands.
She is a deers. You would go crazy
seeing her on a horse. Drury says
she has the most perfect balance
he has ever seen in a child. + is absolutely
fearless. She swam up the horses ridge
+ can ride a trot with her feet out of the
stirrups.

Incidentally I seem to have a fair peak
and demonstrated today trolleys, scavengers
and demonstrated today trolleys, scavengers
carrying the movie camera.

I have no idea when this letter can
be mailed. The nominal date is Thursday
but there is a chance earlier.

Living or phoning seems the only
ready way to communicate Sunday
we now plan to pull out Saturday
and leave then the fact for 3 days
taking the train at Cody Tuesday
night. I hope you like the B.R. idea. I do wish
we could have a long talk over plans,
I am not sure how much I have written you or
what your reaction is. In a general way I think
things have been well worked out. eg. having Janey
+ Eleanor available to keep us in any
way. + the Newfane story seems ok. I had a talk
with Patty Kammerer whose husband is
head of Arnold Farms. or college. She is wife +
daughter. Wm. Mary. I would be glad for W. or that
not competing with her in the school. I would
rather not have our boat sailing yet
until we see how long it takes to leave
comfortably. Re witnesses. I would be glad to
have G.H. go up if the would otherwise leave
Bess + Ann is very sympathetic and come over with
Jack. I would certainly ask Kit.
