"Near Heaven"
Monday

Dearest Dee,

Isn't your work going along with one such beauty of sky, sea & clouds & shininess.

Up 11000 ft. & chilly. — Our stopped at San Pedro & at Port o Prince caught the Maraicibo Express. Non stop to Miami 4 3/4 hrs. Or must be going over those Bahama banks for the last 1/2 hr & shallow. You must take this trip some day. To fly to Porto Rico & then cruise by boat further south & East looks great to me. Ole people on here & one little rather homely kid who is a pianist from Michigan studied all over Europe & has good notes (circular) Looked like a Seventy Eight girl. Has been visiting a sugar plantation in San Domingo & now on tour South & So West. Esther Jonnson Dorr Baker dances knew Grace Story in Paris. What winds some people up & makes them so?

It rained all day Sunday but got cleared up in time for supper & was glad I stayed

the Extra day.
Shall probably call yr
late tonite or chance
If not I hope you can
delay a day or so till I get
home.
Yr wife have to get yr
accts together for income
tax report as it is due before
Yr phone call back from the
West & it is important to
tie all things together.

P.S.
Herewith usual unfinished letter
from the air.
Have been going all day. Win lunched
with me & I go to have a cocktail with
her tonight & then go to a Council of Yr.
Relation dinner. Feel like going ahead
a lot & very fit. Have got a lot
of work waiting here. Hope to
get on to the next week and get the
Organization stuff going. Saw the
list of "14" today & most of tops
Whitney etc. Kettering.

I surely found it lonely last nite
dear & while I believe theoretically
in both doing our own work we
must be sure it is worth while
That goes for both —
Anybody I deduct with Swan
I want you to be very careful
about any commitments and
remember making no thing
not confirmed in writing
with a copy. Plz go to my office
if you wish any secretarial
help you can get it — and
also anything financial
you remember Counselman
I hope you can go to his home
some evening.
I would rather pay all
expenses for you both than
have you stay at his home
for I know and miss a

social mixed
This is no reflection
on him but only apply any
where.
I think I shall probably
run out myself the latter
part of next week and
we should have a week
end there together.
God bless you dear.
Dollie to Jeff - They thought
the only selling Pneumonia
but now all right.
Daniel went out to
mite or two to exercise
and the ears fixed &
had to be cleaned
up. Much love dearest &
my best to Smart & the Graff
Jo
