

Sunday Intz

NEW YORK, N. Y.

Dearest
I seem to put most of my times

I seem to find
writing. This is at yr desk & some chorus is
chorusing (Don Cossack choir.) I took Monday down
to lunch with Kit & saw Bobby & the Kids. R.
comes to you Wednesday & I am jealous of her but
know what a wonderful time you will have
together for which I am happy. Waited old Mary
home for 6.25. Good exercise & worth something
to see the friendliness he inspires. Another
P.M. called Adeline to supper. Goofy as ever
yes - no - yes - no. God save me from it
Complained of Rnd 85 - & I suggest

Complained of rent \$5 - + I suggested
was aft. but after saying she wanted to
up to me concluded only wanted to ^{the} \$4
Nance come this week + I want to have her
to supper. I am not much of an organizer ahead
Re house in fault of letter will have Eleanor
get all bills together for payment. There is a
Bennett Teller bill with 2 bills dated
Jan 23 when you were at Miami. Is there
any chance anyone is using yr acct?
I had to get some one permanently

very chance anyone is using
I shall be glad to get some one permanently
available to come in & keep bill etc. in
order & know my stuff. "yours" at Schosnek
is getting along. Ethel's too. Helping him & he
is getting a lot of work which interest
him. I suggest a useful development

Micky was at Kito. I like him
He should write a fine letter to
his mgr. If I should want to go
ahead with that portrait before
going West I somehow would like you
here when it was to be done. Kit
spoke of the Italian that the musician
knows who asks \$2000 which seems
enough to me with Finns & so many
near starving I have a feeling you
saw his work & didn't like it.

Well I shall stick to my knitting
for a bit I find Goldthwaite won't
be available till Wednesday
I hope you have had as beautiful
weather as we had today

Just talked to Wm she is coming over
to 1040 on the 12th when Billy goes to
C. I suggested the chance of B stopping
over at C. when they were getting
located. But I gather they won't know when
they will be getting a place until Billy
gets out his spoke of Dentist work
July 17th & going the 18th Sunday.

How very statistical I sound? I don't mean to
be & wish that part of life took care of itself
but two parts in the family might be too much

I am one at least but I need you with me
dear its only 4. & that the small half here
tonite. I tried to read Harold's letter. What a mess
I gather Cubby is flying. much love darling J.
