

that has helped me give
what I have + know that
I come back thirstily to
the quiet + refreshing pool
of your love + spiritual
beauty, but still must
have the urge at times
to accomplish you will
bear with me.

I love + cherish + oh so
much admire your love
+ emanation of beauty
by word + picture +
radiance

We must keep
the really minute things
from getting under the
microscope of
nervous tension +

Friday Dec

The University Club
1 West 54th Street

Dearest One

I hope this will reach
you tonight + will air mail
it. First + last - I love you
I don't believe you will ever
know how much. That love
will hold in spite of all
storms + mis-understandings
It will want to cherish +
protect you always + give you
a greater real happiness than
you have ever had

Oh God give me a sense
of proportion!! If he will
do that + you also + all of
us life will be happy
If you understood me
+ my impulses, the force

being magnified to horribly
beasties. They are not real
but shadow figures & we must
both fight them & hold them
in place

You are really so generous
hearted & have so much to give
the world that you must include
me in the world. Don't try to
make me in your pattern.
It couldn't be done. Accept
my blind spots & love me for
the things I can do & thus
strengthen me a hundred times.

The atmosphere of criticism that
I realize I do radiate at times
really intended for the person
or thing I am thinking of & not
for anyone at home is one of
my musts. A family can be like
a person in a room with two opposite
mirrors & see long lines of mirrors going
indefinitely into perspective. Let what
them reflect love forgiveness & the happy
times we have had. I breakfast with Don
in a minute Love John
