~~Newfoundland Hotel~~
~~St. John's, Newfoundland~~

Nfld.
Lewistown ~~N. J.~~
Sunday nite

Dearest Girl
The first breathing spell since I left Thursday at 6 I
If you get yr. map of Nfld. you will see Millerton Junction Buchans. Grand Falls. Lewistown at the end of branch line on a bay + for ont Twillingate. — Route St J. to M. Junction by train then an old Cadillac on the Rails to Buchan a zinc copper lead mine [illegible] Dom Equipment of A.S.+R. where we had a good time + own mule
yesterday am. by gasoline again + ohh how it rained + rained to lunch at a paper mill town Grand Falls + then 5 - 40' gasoline boat launch + it rained started with us 28 mile down the loveliest island filled bay for Twillingate an old fish village on the outermost island. A storm blew in however + we quit half way + made port at Summerford + with a little fishing + lumber village + spent the nite. This morning early we started out + climbed 10ft waves for 3 hrs till we made T— It was cold but no one was ill + we all had a big kick. Bill Jason was in

+ all 3 loved it. There is a
regional hospital there started by
Rockafeller with 2 classmates of
Dan Clark in charge.

They do a wonderful work
both in the hospital + with a launch
visiting outpatients. There is a hospitalage
charge of 60 cts a year per each unit
in a family that gives hospital use
½ charge for operations etc. etc.

The young drs + their wifes + babies
were fine + most enthusiatic over
their jobs. They freeze up in Jan Feb + March
but go in + out with dog teams + sometimes
buses over the ice.

We came home with the wind
down + the bay calm + always smooth and
a full moon. I wished how to have you on
this country. It would be great to cruise up
+ go into the mouths of Labrador rivers with
a canoe to go up them. I think you would
like it + the fishes + logs + rocks + ice
Creeks + work from tents + I like
champing at the bit leaving Montreal for
N.Y. I wonder if you will drive in Sunday
nite + be at 104 when I get in Monday
morning. There ought to be two letters for
me tomorrow morning at 54 St. It does seem
such a long time to be gone. God bless you dearest

I.

Dr. Paul Russell in the field for U.S.P.H.S.
one I could merely see you in the afternoon
