Dearest Dee

What a nest you have fixed for us? God bless you dearest. You do things so well & simply. I planned to work here last nite but got sleepy & turned in at 10:15 with the radio on & heard such lovely music. Wagner & others as I woke & now am writing you instead of starting in the "Diary" I must finish today.

Glancing on the "outside" of my desk I find letter from Nanon after Caly's B'D with such appreciation & appreciation. A Diary keeper in a letter book of '43 with work by "Everett" & John & our interviewing that "crazy couple" & a letter from Eliz Frazer appreciating something I had done with a "report" on Allan Platt by the psychologist.

I should have thrown everything away & locked myself up a year ago & refused orders. Some where. However they are inconsequential.

You are getting well & creating & have done something to be very proud of. Betty is headed right praise God. Our ark all feathers blown by the wind it seems. — Stevens is playing & the wind keeps some - a slipping to stay. Dr. at bk fast at 8:30 12 Hornstalk and a tale in the paper of a British ruling Ls. & Th Nys. in 14 days +.
