Tuesday July 27-82.

Well darling: There isn't an hour of the day I don't think of you and wonder how you are. To give me for not getting up to see you but I left with 3 days notice, that the 14 of July was the last day Dr Stein could see me. He was with ^{Prof} Nicholas during the years he was with the Pope. Remember I had his treatments in Switzerland in the 60's. I did not have energy, and my didn't have instant recall so I needed help and rushed over, dying to help Jim get the apartment painted, cleaned, packed, just made the plane at 9:30 PM for Frankfurt Germany where I changed to get to Hildesheim in time to be examined ^{thru} and he gave me 5 shots the 15th then stay in bed over 3 days. So hot - no air condi. in hotel - I long Turkish bath, no clothes, just water all over me. Left four days later in this Heaven. Jim is redoing the apt at 4:30. He leaves for his vacation with Steve around the 7th of August.

We both have to be home before Sept as we
are due for a job in Colorado Sept 3.rd

I know you are surrounded by love near and
far and are getting better every day, as we
both somehow control our destinies. I am
writing a book on that which was the
Guideposts idea, and they will have it published.
So this is not all vacation. But the air
is like wine. And the only place I go in the
world where every one looks younger each
time I arrive. This for over 10 years. No one
is rich - no one poor, every one goes to work
early all look happy, even dogs, without
leads, along crowded streets just stop to greet each
other and go on with their owners. Music every
where soft, not noise. You can't know how
I wish you were with me. And the warm
water coming up out of the earth cures your aches, pains.
Jim reads some letters, one asks for Nell Dorr's picture of
me in a Foxing dress. You took it in mother's apt on 5th
Street that Paul Chalpin did. Will talk about it later.
I know Chris, Barbara and all your dear ones are
near, so enjoy the summer darling in your cathe-
dral under the pine trees. I am then with you in
spirit if not in body. Always love ^{to} them all. Or
My arms are around you always William.
