Amanda, Feb. 1968

Dearest Nell,

A quick word with this new photo of Amanda before I take off for Canada where I will do a TV documentary in French on The Interior Life and Perception, which is about the creative life, the arts, etc. It will be for CBC and for French speaking Europe. I hope you can get the CBC French TV programs in your area.

What a balm yesterday when the newspapers carried banner headlines: WHITE RACISM CAUSE OF NEGRO URBAN RIOTS.

And what a shock to Washington. They were so certain the riots were the result of subversion and plotting in the Negro community. I hope very soon to name the groups setting these explosions. Pray for my ability to accomplish this. It may result in avoiding the riots this summer if I can get the irrefutable evidence I hope to have soon.

All for the moment, Nell; I am horribly snowed under. Our great, great love to you and Chris and all of those dear to you.

John
