

Bel my darling

How many times I bless you —
and how much I miss you — I
think back to 1040 and our Pipe-together
with all its craziness as a blessed
and beautiful one — and one I shall
be happy to return to. Let me know —
General Delivery. Winter Park —
about March 5th or 6th — your plans about
N.C. If you go we shall be
stopping Charlotte on our return —
but you can stay as long as your heart
desires. I have a feeling you
may stay on in N.Y. for a while
before you go. I know Bob will be
glad if you do — and 1040

isn't such a bad place to rest up in.
I look forward to home with much pleasure -
I am sick of packing & unpacking -
with sand in everything.

Much love Bet darling - more than just
words - I think you know.

John & Monday join me -

Ever & always,

P. H.
