

1- Berlin - 45

Kommandantenstr. 14.

Germany

2. May 66.

Dearest, dear Nell, we are here -
and the first letter to come was
yours. You are under the direct
guidance of the divine spirits
above us. Through you, I also
receive of it, - as anyone who is
ready. It is more and more
dear to me, that everyone is at a
certain state through which he has
to move - onward to another. This
surely must go step after step.
For those still moving through low
stages, it is not well possible to
understand those who, - as you -
are arrived at what is the very
closest and highest, man can come.
I can feel so clearly, that I have
to "live many times" before actually

coming so close to the divine as
you. - I am at moments, but
then so often I get lost; - then I
just stop and close my eyes, - to
receive the world of truth. I
think of you; and then I am again
restored completely. How difficult
it is, to keep out the dark! And
how you have a divine power to
cast out the darkness; the very
thought of you already does it.

You must have gone through the
darkest of dark, all alone; - with
just your heart and soul opened
- to what God would ask of you.

This is the difference. - As I look
at most people, who also have
gone through darkness... it is
terrible what it caused them, - to
go with resentment and self-pity.
Just blindness, false love, and

1.) total confusion of what is true value.

Of this type of people there are so very many. What will lead them right? I was so convinced, your book would do it on a large bases; - but this was wrong valuation on my part. Real influence is not seen that way, nor can it be "put on" in a way that shows. Certainly I, for example, exist under your guidance and influence. (And many more people do, - some without their conscious knowing.) And through me: Thomas. This opens the door alone, - to countless future generations! So how can I think it important or even necessary, that your book must get to more people, when already its influence reaches the future of man.

What I most of all want to say:
Our Apt. here is beautiful, - very
high ceilings, much wood paneling.
The Kitchen large, and also the other
rooms. Ground floor, leading
into an old garden with big Trees.
It is the main- etage of an old
Villa. The owners have the upstairs
part, nice people. Thomas is
in paradise: he can crawl immense
distances, also in the green of the
garden. - Of course it was quite
something, getting here from alarms.
But at last we put little Thomas
into the Car, and drove off. He
loved the whole mess immensely.
Sat inmidst the moving-men,
eating sausage with them.

Here it was a looony process, -
I can not get one piece of furniture
where it belongs. I kept mulling
about, trying to find my way
in and out between boxes and

2.) boxes.... Fortunately, Henry can tell where to put what, and so slowly we got things straightened. But it took weeks, - for I had Thomas Mr. 1, and did not want to get his treatments delayed. So, on top of all this, we saw Doctors etc., and now he gets already his exercises regularly. Now shout with us for joy: Thomas now is learning to walk! He is prepared in every way of beforehand-training, so that his muscles and his body can take the walking-exercises. Before, his back etc. was not ready, so I was so happy to hear the result of the new testing. He can stand up full length on his feet, and march.... of course - being led. It is a tremendous advance.

About Berlin I don't know too much so far, except that one can not go very far, for the Russian zone is
