

The 23rd of May 1960

Our dear NEK,

On This, the day we celebrate a year together, we want to share our sun with you for it is a joyous light that surrounds us and a deep love and Thankfulness that fills our hearts.

These next days, we will be with you in the valley, walking the soft, green meadow, drinking your cool lemonade, making bread with you, the "maestro", and talking until late hours by the fire-light. And we will be returning to the sweet peace of our cottage to greet each other in the loving glow of our marriage

candle . Is it any wonder that we are
so supremely happy with cherished
memories such as these ?

Your own Margaretta and Mitchell
