Dearest Nell,

Such a thoughtful pair of birds! Anne is a delighted correspondent and would like nothing better than to have some new wonder from the mailbox, daily. There is so much to show you of Anne these days. She prepares to become four years old with glee, thinking that when she has her birthday she will eat vegetables, jump rope and learn to swim. Today we constructed furnishings for the playhouse in the yard - a driftwood color shack of considerable charm! The spring has given us all new energies.

2. I am working so hard to capture this splendid horse and us, that I have not made pictures for you. I will. They must be the best.

Pressme builds from my family for a visit from us. Mitch shall not be able to leave his work for any real length of time and I don't want to leave him for any length of time so I am in a real quandry - If I do come it will be in June, sometime. If I ~~can~~^{could}, would it be possible to come see you? How, I'm not sure - but I know that I would not come 3000 miles and not see you. That,

3. for me, would not be worth coming. It wouldn't be the same without Mitch, and I don't know how I would get to Washington from New Jersey, but I must know if it would be possible if I do decide to make - The long trip. If in June, the time would be around the weekend of the 19th. If ideas become more definite, I shall write them swiftly - and with this unfortunate brevity.

I so want to see you -
with great love from us all -

Greta.

P.S. Now it looks as though it might be possible to "be" in the East "working" for a month - what are the chances of renting The Octagon House or the butter house. You can tell that we are restless!
