

2. Cabin book out - finish it now, quickly -
It is ready and needn't linger. Then -
what must be done is to fulfill my
need to make a biography / autobiography
with you. to be the vehicle for that
book. It is my task and it would be
only joy to realize it. The first step
is to ask you if you would agree. The
second is to ask Grace Mayer to participate
and do an introduction - and ask
her for fellowships where I could get
funds to come East with the family
and stay a while. Frederick agrees that
this would be superb - a stepping stone
Eastward.

We need to find the narrow place in
the river, where it isn't so difficult to
get across - where Frederick can under-
stand and agree to an Eastern stay -
and where he might find a new direction
for Scrienshaw if this fund-raising
proves short-lived... which it might -

let me know what you think - along
with the times that we might come...
I'm not sure what that means yet.

Before I close - I will take the night
and Day and sell them for you at book

3. dealer price to my friends at The Dandelion where they are asked about it. If you send me 10 - I will begin there.

You must know also about the extraordinary show of your photographs at The Focus Gallery - It was simply beautiful and evoked a loving response from public and critics alike. It was so alive on the walls, well, and most of what I see is so dead. How simply wonderful it was - and of course, the book was selling well there.

It is time I came. Frederick wants to come also. I want to bring the children - Is my house free at all this year? Perhaps we could rent one for a time. We need to come feel the rhythm of life which we are so close to losing. Urban life has so bent our energy. I know that ~~to~~ now - and know why I want so much to leave here.

Dear friend, thank you for all you have done — and do to increase the

4.

value of my life. I am so grateful.
Words simply don't express —
And I am still in the struggle, hating
The life in a flat - no earth to smell
or touch - a business to life that
causes friction. No real home as I
would like to feel it. I have been
so angry - blaming everyone else
because I didn't want to be here —
Now we need a pathway out —

It's late and my mind tires —
tomorrow I'm going to prepare the
photographs for the Cabin book —
I'm going to get it done.

Thank you, Nell —

Love, love always

Greta
